What you need to do

You need to activate your license and download your security software. You'll need your license key.

If you're going to use Sophos Central Enterprise with Master Licensing, see https://support.sophos.com/support/s/article/KB-000035521?language=en_US. Otherwise, do as follows:

- Go to <https://central.sophos.com/> and sign in. If you don't already have an account, go to <https://www.sophos.com/central-activation>.
- In Sophos Central Admin, click your account name (it's in the upper right of the page).
- From the drop-down menu, select **Licensing**.
- Click **Apply License Key**, enter your key and click **Apply**.
- If your account already has licenses for the features included on the key, you may see another dialog. This lets you choose how to use your new licenses.
 - Change** adds the new licenses to your current licenses now. We'll adjust the license term so that all your licenses expire on the same date.
 - Renew** starts the new licenses when your current licenses expire.

6. Now go to **Protect Devices** (in the left-hand menu). Here you can download all your licensed products.
